Production of electricity by plants in Florida totaled 3,468,317,000 kilowatt-hours through September this year, according to the Florida State Chamber of Commerce.

This year's business review of the State Chamber's research and industrial division places the total for the first nine months of this year eight percent higher than during the same period of 1948.

This year's nine-month total was made up of 3,023,408,000 kilowatt-hours produced by plants for general utility consumption and 444,909,000 kilowatt-hours manufactured by industrial plants for their own uses. Among the plants producing their own current are pulp and paper mills, lumber and by-products plants, minerals, chemicals and food products concerns.

Total of 6,338,971 barrels of oil and 2,844,415 thousand cubic feet of gas were consumed in the manufacture of electricity in the State through September this year. Oil consumption was up three percent and gas up 39 percent from 1948. Water power accounted for about one percent of the total production.

### JAIL MANITANCE

Continued from Page 1 now charged not meeting the retaining expenses. Robert Harrison Harris also stated that his investigation lead him to believe that a \$2 a day fine would be necessary to be charged in the future.

The city jail is used to house city prisoners, some of South Bay, and offenders picked up by Deputy Sheriff, Bond Patrol and Constables for stated periods, and often there is a congested condition.

South Bay pays prison fee on the spot; the sheriff's is billed monthly, and other officers at intervals. The city at present

has one unit which owes \$900.00 for service during 1949, but cannot pay the bill all at one billing.

On and after January 1, 1950, the bills will be allowed to run over 30 days, thus giving the city opportunity to receive what it has paid out in its funds.

clothing, medical care and other jail upkeep. The schedule for maintenance of working prisoners used by the Police, Street and Park departments, are to be figured out on a ratio basis, and charged to the operating funds of the department under the city budget.

Treasurer Harris is digging deep into city finances, and has in mind attempted collections from a number of sources, which are way long delinquent. He cites that the accounts are valid ones and the city is entitled to collect same, and he feels it his duty to do so. Some of these are water rental bills. He cites that so far, the city credit is good on all bond and other obligations, and at all possible desires to keep it that way.

**OBSERVATIONS**  
(Continued From Page 1)  
Citizens also take a bit of pleasure in the obtaining of the higher rating. Prospective lowering of fire insurance rates does not bring waiting from property owners, who, on the nature of our risks, have long paid a high rate on their insurance premiums.

This is the period of the year, when if we are not too busy, many people do a little serious thinking and sort of check up on affairs of the past year and the probabilities of the future. This

thinking takes us to the Christmas holidays, especially that of Christmas, celebrating the birth of the Christ. We like to take the story of the Holy Book and read the music that has grown from and around the celebration as sung in homes, schools and churches throughout the world.

Christmas is principally a religious holiday, and it is along that line which we celebrate it. As symbols of our Faith we have the Cross and the star.

Then on Christmas night how happy we are when we decorate the Christmas tree, assemble

the gifts which come from the family and friends from near and afar, only awaiting for the morrow's dawn to come, till kiddies happily surround the tree to see what jolly old Santa Claus has brought them. That event in most homes is indeed a joyous hour. The spirit of Christmas never changes as it is a time of giving and love. May all the readers of Comment enjoy a Merry Christmas and Happy New Year.

Did you hear the City Choral Society render that beautiful Christmas carols at the Baptist church? Well, it was superb, and the group is worthy of top praise for the manner in which it performed. This Chorus has a wonderful selection of excellent singers, and the annual performance brings great joy to music lovers of the city.

The final week of trading before Christmas brought to local merchants quite a satisfactory deal. More of merchandise was offered and a result more was sold to home town people. Home town patronage is what makes the business of the town.

#### Shrine Football Game Will Have Crowd

From The Herald

From the number of tickets sold for the Shrine football game at Burdine stadium in Miami, Monday night, December 20, between crack college stars, it looks as if from 300 to 400 Glade area fans will see this outstanding game.

The Miami promoters are now placing attendance at over the 50,000 mark, a real record for the New Year's Orange Bowl game. Some 15 of the pick of the star players from the collegiate teams, will be lined up on the North and South teams. The Gustafson aggregation are taking their preliminary practice training at Miami Beach, and Coach Hickman of Yale University has his team at Miami. Predictions are that the game will be an air contest rather than a ground battle and will be sharp and well contested.

"All of the 200 tickets allotted to Belle Glade have been disposed of," says ticket Chairman, W. P. Risk. Those who have tickets reserved are requested to pick same up before business closing hours on Saturday.

Last year more than 4000 children attended the party which was staged only for those in West Palm Beach. This year however, the party has been enlarged to include all children in Palm Beach County.

William Stout, club secretary has also invited all children from Stuart, Fort Pierce, Belle Glade, Delray, Canal Point, Clewiston, Jupiter and other

cities and towns. Twenty races will be staged and entertainers from the local clubs will entertain between the races.

The party will be the opening gun in the March of Dimes campaign of which Earl Gardner is the President. The track will open its official racing season January 2.

County Commissioner Lake Loyal will bring the orphans to the track from the County Home in the 40 and 2 locomotive and caboose while H. Lawrence of the Florida Cities Bus company will provide buses for all children who do not have transportation.

All orphans and crippled children will be the guests of the track in the clubhouse where they cannot be injured by the more active children. The first race will be staged at 10 o'clock, but the gates will be opened at 9 o'clock.

#### Merry Christmas

Even if the custom of giving tokens of remembrance should be banished—Christmas still would be the greatest season of the year.

Christmas time is "remembering" time. It's the one time of the year when good will prevails and we are conscious of our wealth in friendships.

And as we embark upon this Christmastide, may we take this means of expressing our appreciation for your friendship and our hope that we may continue to merit your good will.

#### NEWS VIEWS

By E. D.

This is the time for planning those good resolutions. But, those good resolutions are the least of what we should be concerned with. It is the time when we should be concerned with the things that will make a difference in our lives. It is the time when we should be concerned with the things that will make a difference in the lives of others. It is the time when we should be concerned with the things that will make a difference in the world.

There are many things that we can do to make a difference in our lives. We can be kind to others. We can be honest. We can be brave. We can be generous. We can be patient. We can be forgiving. We can be understanding. We can be loving. We can be all these things and more. We can be the best that we are capable of being. We can be the best that we are capable of being for others. We can be the best that we are capable of being for the world.

A Merry Christmas to all and a Happy New Year to all.

Here's holiday refreshment for your Buick!

TIME's coming when the air is full of good spirits, and we all feel pretty chipper—but what about that faithful Buick of yours?

Wet winter driving is roughest on cars—and even though it still handles like a sweetheart, your Buick may have slipped a notch or so in performance, or gradually acquired a squeak you haven't been aware of.

#### So do this...

Bring it to us for one of our winter tune-ups, plus a special winter LUBRICARE treatment. (This Lubricare is something you and your Buick should know about—it's an over-all trouble-check,

plus a wonderfully thorough lubrication routine!) Between these two refreshing treatments, you'll have all your Buick's glad and breezy power back—plenty of Fireball enough to pull you out of any traffic tussle. You'll have a quiet-riding Buick and chassis that make every mile a glad glide. And you'll have top mileage efficiency, with a motor that starts on the coldest morning as quick as a scared alarm clock!

Why put it off? Our service is quick and expert, our prices lower than you'd think. The driving pleasure you get is immense. Phone us now and make a holiday for bringing your Buick's spirits up to those of the season!

Judge Lloyd in a number of cases was lenient as he assessed the lowest fine possible, namely, \$1 and costs, but others got \$25 and cost. ### HUNDREDS OF KIDDIES

Continued from Page 1 mobbed by the rush of children gathered around him. The principal business at the park was to see that the children secured the Christmas bag filled with apples, oranges, nuts, candies and a toy balloon. That none be missed, and that none got more than their share, the children were "thread-needle" through the Scout hut, which was an expeditious manner of handing the youthful crowd. Although the youth delegation was larger than heretofore there was still some supplies left over, which were latter distributed among children who could not be present to get the Santa Claus gift.

Everyone was most pleased with the beautiful manner in which the club house and the Christmas tree was decorated and illuminated. It was a very classy job which Mrs. McDonald and the city firemen produced. Judge George Tedder was overheard making the remark, that it was during his term as Mayor, that the park was opened, the club house built, and that he personally set out the gum tree which is used as a Christmas tree. He cites that both the club house and the tree still stood and that he must have done a good job of construction work and planning.

This Christmas treat to the kiddies, is but a small portion of Christmas charity which will be distributed in the local area by Saturday night, by the Salvation Army, the Elks, the Veteran organizations, and the churches. When it comes to lending aid to the needy and unfortunate, Belle Glade people give with a generous and frank hand and spread cheer and good-will wherever possible.

### MATURING CROPS

(Continued from Page 1) be disposed of to Miami beach hotels and cafes. This is a new mid-winter crop for this season, and if frost does not come Seagrave will get a good financial harvest. Tomatoes and peppers are being shipped out of his Indian town packing house in large volume.

The State Market at Fort Pierce that past week marketed 100,000 packages of prime tomatoes, for which the growers received \$283,000. Cucumbers and peppers brought the weekly sales up to around \$350,000.

L. C. Strayer, of Moore Haven, who is growing broccoli for a frozen food firm in Lakeland, has begun to cut on his 20 acre tract, with very satisfactory returns. Other farmers in Glades county hold contracts for growing broccoli.

Take a trip over around the Indian town sector in Martin county, you will see thousands of acres of rich virgin soil growing tomatoes, beans, cucumbers and other winter crops, which was but raw sand land a few years ago. The area is blooming like the Garden of Eden. Farmers have expended thousands of dollars and are doing a heroic profitable job.

### State Gets Tight On Operating Funds

The state has stopped paying bills for the general operation of government, as Comptroller C. M. Gay warned there may be only enough money in the general fund to pay January 1 salaries. The December allocation of \$2,500,000 for common schools has been made, he said, and enough money will remain to meet the \$2,000,000 state payroll and the \$1,500,000 welfare needs in January.

He and the cabinet urged the public to buy automobile licenses early. Some \$18,000,000 a year is received from this source. It is too early to determine the amounts to be received from the sales tax. Re-

ports of November collections of the sales tax are due December 20.

### Chamber Committee Working On Plans For New Industries

The Industrial committee of the Chamber of Commerce met at a luncheon meeting in Billy's restaurant last Monday and made general plans for activity of the committee during the next year.

It was agreed that prospective industries which should receive immediate attention are dairying, processing plants for dairy products, livestock feed processing plants, vegetable canning and quick freeze plants, meat packing, tanning plant, bamboo furniture manufacturer and seed growing and harvesting including grass stock. Also Rame and allied industries.

It was pointed out that one or more of the factors, Markets, Materials and Labor were determining factors in inducing an industry to select a given location and that a study of needs of different industries may determine that we have factors favorable to industries which have not received sufficient consideration.

Mr. C. A. Bailey, a member of the Committee offered to pay a \$10.00 prize for the most practical suggestion as to means of inducing industry to establish operating plants here.

The picture is "Canadian Pacific" which stars Randolph Scott, Jane Wyatt, J. Carroll Nash and Victor Jory, and is filmed in gorgeous color which enhances the beauty of the famed Canadian Rockies.

In this picture Scott is entrusted with the responsibility of pushing the rails of the Canadian Pacific across the Rockies and through the Fraser River gorge. He finds a secret pass but is opposed and attacked by Jory, a trader in the Alberta country. In the construction camp Scott meets Nash, an old friend, and Miss Wyatt, a doctor, who later volunteers. Scott is in love with Nancy Olson, an Indian girl, whom he plans to marry. Jory covets Nancy and swears Scott of his diabolical plans. Scott finds that Jory has incited the Indians. Jory also manages to blow up his enemy with dynamite. Jane falls in love with Scott and Nancy fears she has lost her man. An Indian attack almost wipes out the construction camp, but Nancy arrives in time with reinforcements. Scott, having to choose between the two women, turns to Nancy.
